Ms. Susan Roth
6236 27th Avenue NE
Seattle, WA 98115-7114

Dear Ms Roth:

**Re: Soil Vapor Technical Memorandum #2
Terminal 91 Tank Farm Site
Agreed Order #: DE 98HW-N108**

On April 28, 2003, the Washington State Department of Ecology (Ecology) received your request to extend the due date for submitting the revision to *Soil Vapor Technical Memorandum #2*. The PLP Group proposes to submit the document on May 16, 2003, instead of May 2, 2003.

Since the author of the revision has been ill, Ecology agrees that the document may be submitted on the 16th instead of the 2nd. As we discussed on the phone, however, if the PLP Group intends to rebut Ecology's position on the need for further assessing the potential for petroleum-related vapor intrusion at the site, your position should be forwarded to the Department via Email well in advance of May 16. If you have any questions concerning this correspondence, please contact me at (425) 649-4449.

Sincerely,

Ed Jones
Environmental Engineer
